ADVISING ON INTERNATIONAL, COMPLEX TRANSACTIONS

We have a strong track record advising on complex, cross-border deals, and regularly advise international clients on investments into France. This enables us to understand the key points of interest to international investors and to successfully drive such deals to a conclusion.

We proactively identify French specificities (in particular regulatory or HR matters) which may not be foreseen by international investors and offer insight on how to best address these issues.

SIGNIFICANT GROWTH OF THE PARIS OFFICE

We continue to target growth across our existing offices and regional networks. The Paris office now has a team of 18 partners across 10 practice areas.

FULL SERVICE CAPABILITIES

Following a purposeful drive to expand our continental European hub, the office is now full service enabling our Private Equity and M&A team to draw upon local specialist lawyers for transactional or litigation support.

For aspects requiring the expertise of other specialists - such as real estate or public law - our philosophy is to partner with specialist boutiques, focused on such areas. We think this gives you the best depth and level of expertise which exists, in order to serve your interests on your transactions.

This flexible and agile strategy enables us to provide our clients with seamless advice on the full range of legal topics, ensuring we always put the best people in front of our clients.
